Limited to top 50 stores by 2012 in-store deposits.

As of March 4, 2013.

Deposit data is based on FDIC Summary of Deposits as of June 30 of the respective year.

Same-store growth is calculated with the deposits at only the active branches as of both the beginning and the end of each respective period.

In-store data based on SNL survey sent out to every bank and thrift that filed "in-store" branches in the FDIC Summary of Deposits to obtain the stores in which these branches are located.
