

"Branch and deposit trends across US oil & shale gas regions"

Data compiled Oct. 8, 2015.

* Analysis includes all branches located in the seven major U.S. oil and shale gas regions highlighted by the EIA in its monthly drilling productivity report. Regions include Bakken, Eagle Ford, Haynesville, Marcellus, Niobrara, Permian and Utica.

Branch data for each year is based on June 30 Summary of Deposits filings.

^ 2015 branch data is adjusted for completed mergers and acquisitions, as well as openings and closings, since the FDIC Summary of Deposits for June 30, 2015.

Analysis excludes credit unions.
